

Minimizing Your Risk and Liability of Fire Code Offences

Proudly sponsored by

Wednesday, February 29th

**WEBINAR – Event held online (login info will emailed 2 days prior to registrants)
1:00pm – 2:30pm**

Learn how to minimize risk due to allegations of violations of the Ontario Fire Code. This seminar will review best practices to ensure your staff minimize risk and liability for Fire Code offences. Expert speakers will assess common liability issues that often result in prosecution of landlords and how that liability can be avoided. This is a timely issue, and attendees will also learn how landlords are often held responsible for fire risks due to the acts of tenants, and what strategies you can use to reduce tenant-caused liability.
